

Climate Change Advisory Committee Today's Meeting Expectations

April 6, 2005

***Susan J. Brown
California Energy Commission***

Agenda for Today's Meeting

- Presentations by The Center for Clean Air Policy: industrial, transportation and power generation sector options
- Subcommittee feedback and preliminary policy recommendations
- Full Advisory Committee feedback
- Public comments

California Update

- **The Energy Commission's 2005 Integrated Energy Policy Report proceedings are now underway.**
- **CPUC held an "en banc" meeting on climate change on February 23, 2005 with Cal EPA, the CEC, State Controller and the regulated utilities.**
- **Other states are considering adoption of the ARB Motor Vehicle Standards.**
- **Energy Action Plan 2 will feature climate change as a major theme.**

West Coast Governor's Global Warming Initiative

- **The California, Oregon and Washington Staff are meeting in May 2005.**
- **The Staff recommended 35 regional and state actions on global climate change.**
- **Three states have agreed to work together to carry out key recommendations in 2005.**
- **We plan to organize the first regional science conference on Climate Change in September 2005.**

West Coast Governor's Global Warming Initiative: Key Recommendations

- Coordinate with state-level stakeholder processes
- Adopt comprehensive state and regional goals for greenhouse gas reductions
- Adopt common standards to reduce greenhouse gas emissions from vehicles
- Develop a regional, market-based carbon allowance program
- Expand markets for efficiency, renewable resources, and alternative fuels.

Subcommittee Progress

- **Subcommittees met via conference calls on power sector, transportation sector, and a combined committee on agriculture, forestry and industrial sectors.**
- **Feedback on power sector modeling assumptions for a reference case and scenarios**
- **Committee of the whole on cross-cutting issues, such as “cap and trade” options, public education and market incentives, has not met.**
- **Review of CCAP staff work products in advance of each meeting: July 11-12, 2005**

Subcommittee Feedback Today

- Industrial and Agriculture: Robert Parkhurst and Cynthia Corey, Co-Chairs
- Transportation: Jason Mark and Michael Meacham, Co-Chairs
- Power Sector: Jan Shori and Ralph Cavanagh, Co-Chairs
- Cross-Cutting Issues: Josh Margoles and Peggy Duxbury, Co-Chairs

Schedule and Next Steps

- CCAP analysis of selected options on power, transportation, agricultural and forestry and industrial: In progress.
- Subcommittee review and feedback on options being evaluated: Conference calls
- Comments from the Advisory Committee on Draft CEC Staff background paper: June 15, 2005
- Members are requested to attend the Energy Commission hearing on climate change for the *2005 Integration Energy Policy Report*. July 11-12, 2005
- Committee should meet again to finalize their recommendations. September 2005
